Valued Customer
BJORN THORSEN A/S

Request regarding conflict minerals for: **ESTANE® ZHF 58202 NAT 02**

Dear Valued Customer:

The Lubrizol Corporation is a company that complies with the legal requirements imposed by the Dodd-Frank Act & Regulation (EU) 2017/821. These regulations have placed requirements on Lubrizol to investigate its supply chain with respect to conflict minerals, which are gold, tin, tantalum and tungsten sourced from Conflict-Affected & High-Risk Areas (CAHRA). Lubrizol has undertaken that review, and as your supplier for the products specified above, to the best of our knowledge, these materials do not contain conflict minerals.

Sincerely,

A handwritten signature in black ink, appearing to read "S. Mohanasundari", is written over a light grey rectangular background.
