

Capilene® SG 50

Polypropylene

General Statement on Mineral Oil

We do not incorporate any type of mineral oil (MOSH/MOAH) as an additive to any of Carmel Olefins products.

MOSH (mineral oil saturated hydrocarbons) is used as a processing aid during the production process of Capilene SG 50. It is partly drained out of the polymer further in the process. Only minor traces remain in the final product.

Disclaimer

To the best of our knowledge, the information contained herein is accurate and reliable as of the date of publication; however, we do not assume any liability whatsoever for the accuracy and completeness of the above information. Carmel Olefins Ltd. makes no warranties which extend beyond the description contained herein. Any information given in this statement does not constitute any warranty of merchantability or fitness for a particular use. It is the customers' responsibility to inspect and to test our products in order to satisfy themselves as to the suitability of the products to their particular purpose. The customers are responsible for the appropriate, safe and legal use, processing and handling of our products. Carmel Olefins Ltd will not accept any liability with respect to the use of its products in conjunction with other materials.
