Statement DuPure®R76: Absence of certain substances

Substances to promote the formation of the so-called beta crystalline phase in polypropylene, are not intentionally used as additive in the formulation of the above-mentioned polypropylene grade. The absence of such substances has not been checked by tests.

The information provided in this document applies to the product mentioned above as it leaves the production facility of Ducor Petrochemicals B.V., and does not cover any additive, pigment, or any other third party material, subsequently included by the convertor.

On behalf of Ducor Petrochemicals B.V.,

Toine Machiels
R&D and Technical Service Manager

Ducor Petrochemicals B.V.
