**Statement on DuPure®T76 – Food Contact Regulations China**

GB4806.6-2016 - National Food Safety Standard: Food Contact Resins

The base resin in above-mentioned polypropylene grade complies with the specifications mentioned in GB4806.6-2016 – National Food Safety Standard: Food Contact Resins, Appendix A, Table A.1, Resin No. 74. No monomer(s) with SML's are present in this base resin.

GB9685-2016 - National Food Safety Standard: Additives for use in Food Contact Materials and Articles

The additives in above-mentioned polypropylene grade are listed on Appendix A: Table A1: "Food contact plastic materials and their products – allowable additives with their use requirements", of the Chinese National Standard of Food Safety GB9685-2016, and are not used in amounts which exceed the applicable limits. No additives with a SML are present.

The information provided in this document applies to the product mentioned above as it leaves the production facility of Ducor Petrochemicals B.V., and does not cover any additive, pigment, or any other third party material, subsequently included by the convertor. Ducor Petrochemicals B.V. has no control over final product composition, nor over processing conditions. It is therefore the responsibility of the convertor to check and confirm that the final article meets both the technical and regulatory requirements of the application.

On behalf of Ducor Petrochemicals B.V.,

Toine Machiels  
R&D and Technical Service Manager
