Statement on DuPure T76 – Japan Food Contact Compliance - Positive List of substances

The monomers, base resin, and additives of above-mentioned polypropylene grade, meet the relevant requirements of the Positive List (PL) System for food-contact plastics laid down in Table 1(1) – Base Polymers (Plastics) and Table 2 – Additives, Coating Agents, Etc., respectively, under the Ministry of Health, Labour and Welfare (MHLW) Food Sanitation Act.

The information provided in this document applies to the product mentioned above as it leaves the production facility of Ducor Petrochemicals B.V., and does not cover any additive, pigment, or any other third party material, subsequently included by the convertor. Ducor Petrochemicals B.V. has no control over final product composition, nor over processing conditions. It is therefore the responsibility of the convertor to check and confirm that the final article meets both the technical and regulatory requirements of the application.

On behalf of Ducor Petrochemicals B.V.,
