

Issue Date: **11 August 2025**

At request of: **PLASTRIBUTION LTD**

Product Name: **ExxonMobil™ LD 21024.BA**

We are pleased to provide the following information concerning the absence or presence of certain substances in the ExxonMobil Chemical product referenced above.

PABA (4-Aminobenzoic acid) (CAS No. 150-13-0) is not intentionally used by ExxonMobil in this product.

Although this product is not routinely tested for its presence, based on product composition knowledge this substance is not expected to be present. However, the fact that this substance is not intentionally used by ExxonMobil in this product does not exclude that trace levels of this substance may be present as a result of the specific characteristics of the raw materials and/or of the manufacturing process.

We appreciate your continued interest in ExxonMobil products. If you have any questions or need additional information, please contact your ExxonMobil Sales Representative or Customer Account Specialist.

Kind Regards,
Product Stewardship and Regulatory Affairs
