2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment

PVB21

Annex II of 2011/65/EU lists substances that have maximum permitted concentration values.

The above mentioned masterbatch does **not** contain the substances PBB or PBDE mentioned in Annex II of 2011/65/EU

The above mentioned masterbatch does contain trace levels of Lead, Mercury, Cadmium and Chromium however, levels of individual substances should not typically exceed those indicated in Annex II of 2011/65/EU.

(EU) 2015/863 amends directive 2011/65/EU by listing a further 4 substances with maximum concentration values that are not to be exceeded. The above mentioned masterbatch does **not** contain any of the 4 substances listed (DEHP, BBP, DBP, DIBP)

The above mentioned masterbatch is therefore compliant with 2011/65/EU (as amended)

For the levels of the above heavy metal please refer to the std Hubron heavy metal statement.

For Hubron
