

Attestation of conformity
regarding the hygiene suitability of pre-products in contact with drinking water (P2)

Registration number:	Z-371745-23-Hy220 Rev.01 replaces Z-371745-23-Hy220
Certificate holder:	Global Polyacetal Co., Ltd. Shiodome Sumitomo-Building 25F 9 – 2 Higashi-Shinbashi 1-chome, Minato-ku TOKYO 105-0021 JAPAN
Pre-products:	IUPITAL F20-EW T7274 IUPITAL F20-EW Natural
Appendix:	Applicable documents

The certification is based on

- the „Attestation of conformity of drinking water hygienic suitability – simplified procedure“ of the certification body HyCert im Hygiene-Institut des Ruhrgebiets in the version of 08-09-2021,
- the Recommendation for Attestation of Conformity of product hygiene suitability for drinking water of the German Environment Agency (UBA) of 07-29-2021,

as well as on the following information provided by the certificate holder

- product information,
- test documents and
- formulation data.

We confirm that all above listed products meet the requirements of the

- **Evaluation criteria for plastics and other organic Materials in contact with drinking water**

in the temperature area **23 °C** and **60 °C** for the product group

- **Containers and tanks in drinking water installations, including repair systems in contact with drinking water (Fc = 4)**

and comply with them.

This confirmation is generally valid for end products of risk group P2 or P3 according to the KTW evaluation criteria provided that the processing conditions are observed by the user.

For end products of risk group P1 (except for the product group pipes DN < 80mm), this confirmation is valid to proof the conformity of the requirements regarding formulation and microbiology. Migration tests must be carried out on the end product.

This certificate is valid beginning with the date of issue and is ending by **19.09.2027**.

In case of translations, the date of issue of the original shall apply.

Certification body HyCert

The materials and components listed in the appendix "Applicable documents" belonging to this document are the basis of this certificate.

In case of changes of formulations or manufacturing conditions, the document loses its validity. The annex contains confidential information on the underlying test documents and does not have to be published by the certificate holder. However, the certificate holder is obliged to refer to the valid areas of application in a suitable manner when passing on the certificate.

The confirmation of conformity was made under the condition that the raw materials used for the manufacture of the product or their composition were fully disclosed and that no other substances are contained in the product. The validity of this document expires in case of changes in material composition or manufacturing conditions not agreed with the certification body, as well as in case of non-compliance with the conformity requirements and termination of the 1+system surveillance program of the certification body and the manufacturer.

The results of our tests and the assessments apply to the test items examined and the legal requirements in force at the time of certification. This document may only be published or reproduced in complete and unaltered form without our express written permission.
