

REACH DECLARATION

The Mitsubishi Engineering-Plastics Corp. (shortly MEP) products mentioned below and purchased from MEP-Europe GmbH (subsidiary of MEP) in Europe are compliant with EC Regulation 1907/2006 (REACH).

- Lupilon (polycarbonate resin)
- Novarex (polycarbonate resin)
- Lupital (polyacetal resin)
- Novaduran (polybutylene terephthalate resin)
- Lupiace (modified polyphenylene ether resin)
- Lemalloy (modified polyphenylene ether resin)
- Reny (High performance polyamide resin)

In 2008, MEP has successfully pre-registered its relevant substances. Those substances that met the requirements of the 2010 and 2013 deadlines have been registered successfully. MEP will continue its registration obligations for the upcoming deadline (i.e. 2018). We will take all necessary actions to safeguard our security of supply.

This declaration has been prepared and issued on the basis of currently applicable laws and regulations and our best knowledge and expertise currently available; the addressee or recipient is advised to regularly request updates hereof. This declaration replaces all previous ones relating to this subject.

The General Conditions of Sale of the entity selling this product apply to and are part of all our quotations, offers, agreements, sales, deliveries and all other similar dealings, unless explicitly agreed otherwise by means of a duly and mutually executed document.

This information holds for the material as it leaves its production facilities and does not include any additive, pigment, etc. subsequently added by the device manufacturer or processing steps undertaken by any other third party.
