**COMMISSION REGULATION (EU) NO 10/2011 (OF 14 JANUARY 2011) ON PLASTIC MATERIALS AND ARTICLES INTENDED TO COME INTO CONTACT WITH FOOD** and as amended and corrected, applicable to intermediate materials (e.g. plastic granules, plastic flakes). The monomers and additives used to produce this product are listed in the Union List of Authorizes substances of Regulation 10/2011/EC and subsequent amendments.

We draw your attention to the fact that the EU-Directive 10/2011/EC, which applies to all EU-Member States, includes a limit of 10 mg/dm<sup>2</sup> on the overall migration (OML) from finished food contact material or article. The OML and specific migration limites (SMLs, if applicable) should be determined according to the requirements specified in Regulation 10/2011/EC and subsequent amendments. Determination of OML and SML is the responsibility of the manufacturer of the finished plastic food contact material or article. In addition, we remind you that the manufacturers of the finished food contact material or article must verify that the finished material or article, manufactured according to good manufacturing practices, does not modify the organoleptic properties of the food. This product does not contain monomers, additives or components which have SMLs or QMAs as specified by Regulation 10/2011/EC.

Dual use additives are not intentionally used for production of this product.

Please note it is responsibility of both the manufacturers of finishing contact articles as well as the industrial food packers to make sure that these articles in their actual use are in compliance with requirements given by above mentioned regulations.

**REGULATION (EC) No 2023/2006 (OF 22 DECEMBER 2006) ON GOOD MANUFACTURING PRACTICE FOR MATERIALS AND ARTICLES INTENDED TO COME INTO CONTACT WITH FOOD** and as amended, applicable to intermediate materials (e.g. plastic granules, plastic flakes).

We declare that production of this product runs under established, implemented and observed effective and documented quality assurance system certified by ISO 9001, ISO 14001 and OHSAS 18001.
