REACH Statement for Polyethylene Bralen®, Bralen+® and Polypropylene Tatren®

SLOVNAFT, a.s. company as a producer and supplier of all above mentioned polymers in a compliance with the regulatory system EC 1907/2006 for Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) with the principles of registration grades gives the following statement:

1. The obligation to register substances polyethylene and polypropylene

- **Polyethylene** low density (CAS 9002-88-4) according to the „TITLE I, Article 2(9)“ of the REACH Regulation EC 1907/2006 **is not the subject to registration**, but the monomer – Ethylene, from which the polymer is produced, is registered in a compliance with REACH
- **Polypropylene homopolymers** (CAS 9003-07-0) and **Polypropylene copolymers** (CAS 9010-79-1) according to the „TITLE I, Article 2(9)“ of the REACH Regulation EC 1907/2006 **are not the subject to registration**, but the monomers from which they are produce should be registered in a compliance with REACH
- **Ethylene** (CAS 74-85-1) manufactured and used by SLOVNAFT, a.s. for the production of polyethylene and polypropylene **was registered** with registration number: 01-2119462827-27 by November 30, 2010
- **Propylene** (CAS115-7-1) manufactured and used by SLOVNAFT, a.s. for the production of polypropylene **was registered** with registration number: 01-2119447103-50 by November 30, 2010
- **All additives** used in the manufacturing of all above mentioned polymers **are registered** by their's suppliers in accordance with REACH

According to the „TITLE I, Article 2 (9)“ of the REACH Regulation EC 1907/2006 the polymers are not subject of registration the manufacture according to Article 10 to 14 is not obliged.

- **to create registration dossier**
- **to create exposition scenario and chemical safety report**

2. The presence of hazardous substances

All above mentioned polymers are not classified according to Regulation 1272/2008/EC - CLP as dangerous and containing neither ingredients dangerous for health nor for the environment.

3 The statement to the presence of substances Dimethylfumarate (DMF)

We confirm that SLOVNAFT, a.s. fulfills the conditions of Decision 2009/251/EC of the European Commission and that the substance of Dimethylfumarate (DMF) does not occur in all our products / substances and even product packaging. The nature of the production technology of processing crude oil and petroleum products shows that this compound is not present in our products.

4 The biocides presence in substances polyethylene and polypropylene.

We confirm that SLOVNAFT, a.s. satisfies the conditions of the European Commission Regulation 528/2012/EC and that biocides are not present in our products. The nature of the production technology of processing crude oil and petroleum products results that this compound is not present in our products.

According to the "Title IV, Article 31" REACH - "Regulation no. 1907/2006 of the European Parliament and the Council" we have no obligation to provide Safety Data Sheets for these products, but in terms of the internal rules of the Company have prepared the MSDS in accordance with REACH Regulation EC 2015/830 and are found at website www.slovnaft.sk in section plastics.
