PFAS Free Statement

Subject: PFAS Status

Product: M01000257 TISLAMID 6 UNR IM NC

Dear Valued Customer;

Per and polyfluoro substances (PFAS) are a class of over thousands synthetic chemicals and they are widely used. Due to carbon-fluorine bonds in its structure, their degradation in nature is difficult. Since these chemicals are harmful for human and environment, their usage is restricted.

We confirm that the products mentioned above do not contain substances identified as per- and polyfluoroalkyl substances (PFAS).

Respectfully yours,
TISAN ENGINEERING PLASTICS LTD. CO.
