Letter: JT/SLI/18L00774

Feluy, 10/09/2018

Dear Sir,

Concern: POLYPROPYLENE LUMICENE® MR 30MC2

Proposition 65

This statement is in response to your request regarding the compliance of the above-mentioned product(s) with the California Safe Drinking Water Enforcement Act of 1986, also known as Proposition 65 as revised on May 25, 2018 (hereinafter referred to as Proposition 65).

We can hereby confirm that we do not use the chemicals mentioned in the above mentioned list as additive as defined in Article 3 and that would justify a listing in Annex I of the Commission Regulation (EU) No 10/2011.

Furthermore we inform you that we do not test each grade we sell to check the potential presence of trace amounts of each chemical listed in the Proposition 65.

Thus, whilst we cannot make an absolute claim about the absence of Proposition 65 chemicals in the above-mentioned product(s), we believe that no warning is required under Proposition 65.

Our statement does not cover:

- any modification of the warranted product by any addition of any other product to it,
- any prejudicial modification of the warranted product resulting from a processing of the product,
- an inadequate use and/or storage of the material and of the finished articles.

The present statement is valid for a period of one year starting from the date first above written.

We are at your disposal for any further information you may need and remain,

Yours faithfully
TOTAL RESEARCH & TECHNOLOGY FELUY
