Since the presence of the chemicals referred to above is not reasonably foreseeable, no specific analysis is regularly performed on our standard products in order to verify the presence and the content of the same substances.

This statement is based on our raw material information and product formulation knowledge; no intentional use or foreseeable presence of POPs is expected in our products.

Therefore, the presence of impurities from raw materials or contaminants from manufacturing processes cannot be ruled out.

Every further information concerning chemical properties and composition of our grades are well described in the corresponding SDS, we kindly invite you to ask to our Customer Service (info.plastics@radicigroup.com) in the case of needs.
