

Chignolo d'Isola, 9 February 2026

**Subject: REACH EU Regulation No 1907/2006<sup>1</sup> - Substances identified as SVHC:**  
Updating of the "*Candidate List*" according to ECHA/NR/25/29<sup>2</sup> of 4 February 2026

Dear Customer,

On 4 February 2026, the European Chemicals Agency (ECHA), in accordance with Article 59 of Regulation (EC) No 1907/2006 (REACH), confirmed the inclusion of n-hexane and 4,4'-[2,2,2-trifluoro-1-(trifluoromethyl)ethylidene]diphenol and its salts in the Candidate List of Substances of Very High Concern (SVHCs). These substances are used, inter alia, in formulations, polymer processing, coatings, and cleaning agents, as well as process regulators and cross-linking agents, respectively, and may present risks to human health or the environment.

The Candidate List of substances of very high concern now contains 253 entries for chemicals that can harm people or the environment.

The updated SVHC (published by Article 59 (10) of the REACH Regulation), as well as the background information on it and related obligations, can be easily accessed at the following web link: <https://echa.europa.eu/candidate-list-table>

We are therefore glad to inform you that all the grades supplied by RadiciGroup High PerformancePolymers, with the trademarks:

RADILON<sup>®</sup>, RADIFLAM<sup>®</sup>, RADISTRONG<sup>®</sup>, HERAMID<sup>®</sup>, RENYCLE<sup>®</sup>,  
RADITER<sup>®</sup>, RADITECK<sup>®</sup>, RADILENE<sup>®</sup>, HERAFLEX<sup>®</sup>, HERAFORM<sup>®</sup>,  
TORZEN<sup>®</sup>

do not contain, neither as raw material nor as intentionally added additives, substances identified as SUBSTANCES OF VERY HIGH CONCERN (SVHC)

Substances of Very High Concern are defined in Article 57 of Regulation (EC) No 1907/2006 and includes substances that are:

- Carcinogenic, Mutagenic or toxic for Reproduction (CMR), meeting the criteria for classification in category 1 or 2 in accordance with Directive 67/548/EEC<sup>3</sup>;
- Persistent, Bioaccumulative and Toxic (PBT) or very Persistent, very Bioaccumulative (vPvB) in accordance with the criteria set out in Annex XIII of the REACH Regulation; and,
- Substances for which there is scientific evidence, evaluated on a case-by-case basis, of probable serious effects to human health or the environment which give rise to an equivalent level of concern to those of the above mentioned substances (e.g. endocrine disrupters).

According to our best knowledge, these substances are not present in our materials, except for possible traces below the declaration threshold of **0.1% (w/w)**.

Please note that the inclusion of a substance on the candidate list does not automatically lead to a substitution and subsequently to a ban. Listing only indicates that these substances might become subject to authorization.

As only candidate substances may become subject to authorization this SVHC statement implicates substances listed in **Annex XIV of the REACH regulation**.

Since the presence of the chemicals referred to above is not reasonably foreseeable, no specific analysis is performed regularly on our standard products in order to verify the presence and content of the same substances.

**SCIP** is the database for information on **Substances of Concern** in articles as such or in complex objects (Products) established under the Waste Framework Directive (WFD).

Companies supplying **articles** containing substances of very high concern (SVHCs) on the Candidate List in a concentration above 0.1% weight by weight (w/w) on the EU market have to submit information on these articles to ECHA, as from 5 January 2021.

Due to the fact SVHC are not present in our products, apart from traces below the limit of 0.1% (weight by weight), and we do not produce articles, we are not obliged to notify to SCIP.

Companies supplying **materials** containing substances of very high concern (SVHCs) on the Candidate List in a concentration above 0.1% weight by weight (w/w) are obliged to indicate it in the section 3 of the SDS.

Every further information concerning chemical properties and composition of our grades are well described in the corresponding SDS, we kindly invite you to ask to our Customer Service ([info.plastics@radicigroup.com](mailto:info.plastics@radicigroup.com)) in the case of needs.

This statement applies to all RadiciGroup High Performance Polymers materials except for the following grades:

- RADILON® A V2 161C NT
- RADIFLAM® A AE 121C NT
- RADIFLAM® A AE 121 NT
- RADIFLAM® A AE 2065C WT
- RADIFLAM® A AE 1921C NT

Thanks for your kind attention and best regards,
